Ginger Barber

GINGER BARBER INTERIOR DESIGN HOUSTON

"Indoor-outdoor spaces are a particular favorite of mine because inspiration can be pulled from both the home and natural surroundings. My design preference is always to keep it simple—classic woods, blends of neutral tones, and personal pieces can easily create a balanced oasis." gingerbarber.com

CHANDLER PREWITT DESIGN

SANTA FE

"Your home environment should be tailored to incorporate what you need to live and work to your highest potential. Design should reflect an extraordinary sensitivity to your lifestyle. Quality in materials and a real pride of excellence shown in the details of the work of artisans and craftspeople count."
